Brand New Book ***** Print on Demand *****.In recent times security is being interpreted increasingly as comprehensive security, the focus has been shifted towards the human security, the economic security as well as environmental security. As defined by the United Nation s Human Development Report of 1994, human security includes safety from chronic threats and harmful disruptions in the patterns of daily life. In the growing literature, the concept of human security has been expanded to include economic, health and environmental concerns for energy security become important. India is among the top four consumers of energy just behind the U.S., China and Japan, India s total primary energy demand in 1997-98 was 25.5 million tons and this is expected to rise up to the 770 million tons in 2020. Currently the share of fuels in primary energy dominated by coal and oil. India cannot meet this demand domestically and has to rely on outside supplies. This creates a situation of dependence and call for Cooperation from other nations-states. Currently energy resources such as coal and oil are becoming extremely depleted and will run out in the...
